Re: Air-Rifle "Silencer" Case

Your Honor:

I must protest to you the abhorrent treatment received by me from your court in this case. I have been in custody a FULL MONTH yet have not had a Detention Hearing nor a Pretrial Services Interview.

Bear in mind, I am a CITIZEN! I served Jury Duty in March 2004 in Superior Court and was assigned to Panel 7. I am not on parole, not on probation, not on Supervised Release, not on bail, not on "Conditions", not on nothing. Where are my rights?

-2-

Am I to be held indefinitely in some "provisional detention" just because I got a long lawsuit history, or because I have an ancient prior criminal history (that didn't help me escape jury duty)?

On top of all this, Newstate Vernon makes specific arrangements with Ludlow's Nursing staff to use their Drug Addict Detoxification Protocol on me and now look what happens --- because I filed a grievance at Ludlow as to (a) limiting my purchase of postage stamps for legal mailings and (b) to mass-punishment inflicted on our whole cell block due to a strut-fray fight involving only 15 out of 102 residents, I find myself out-of-state, 90 miles away from my lawyer who I can neither see nor call! This is called a conspiracy under U.S. Const. (Amend 1) to retaliate against the petition for redress of grievance and your DUSM's, those sheriff officials, and the Wyatt people, are all roped in who now both know.

I ask that you certify all 1 to show on your court is out of control. (1) Return me to Ludlow immediately under the all Writs Act, (2) Make Vernon afford me a full detention hearing, subject to being

appealed to you, and (2) Require Pretrial
Services to do their job so we can move
forward.

Respectfully yours
Michael Crooker,
Defendant in
pro se ABLE Case
